

Master Plan

The benefits associated with the creation of the Master Plan include:

- Improved strategic direction for use and development of the reserves
- Provide clear implementation and delivery uplift to the reserves
- Increase in usable public open space
- Increase the number of trees and shrubs planted, with a focus on locally appropriate indigenous species selection to strengthen ecological connectivity and habitat value across the municipality
- Increased sense of safety
- Increase in diversity of unstructured recreation and social facilities
- Improved access to and throughout the reserves
- Upgraded assets and infrastructure.

Legend

- Subject Area
- Site Boundary
- Bus Route
- Bus Stop
- Tram Route
- Tram Stop
- Parking Location
- Gravel area
- Existing Shared Path
- Existing Pedestrian Concrete Path
- Existing Pedestrian Gravel Path
- Existing Bi-directional Bike Path
