

DESIGN FRAMEWORK

1. Vehicle maintenance access gate with new crossover.
2. Double-gated entry with bin and signage.
3. Southern entry gate aligned parallel with shared path to reduce user conflict.
4. Seating area overlooking activity spaces.
5. Retain existing trees and garden bed.
6. New shade trees to enhance comfort and amenity.
7. Open lawn for exercise, play and social interaction.
8. Natural exploration area with logs, rocks and mulch.
9. Raised seating deck for rest and social interaction.
10. Dog agility elements for active play and training.
11. Internal gravel path.
12. Drinking fountain with tippable dog bowl inside and outside the dog park.
13. Relocated picnic table
14. Wayfinding signage along shared user path.
15. Path realignment to improve accessibility and safety.
