

Acland Street Upgrade

WORKS UPDATE - TERMINUS CONSTRUCTION AND STREETScape WORKS

- Important update on works occurring in your area
- Confirmed construction dates for terminus construction and track replacement

Public Transport Victoria (PTV), the City of Port Phillip and Yarra Trams are working together to revitalise the streetscape and upgrade the tram terminus on Acland Street. These works are part of the end-to-end upgrade of Route 96, Melbourne's busiest tram route, and are critical to improving the network.

The Acland Street Upgrade Project will be completed over two stages. Construction of the new terminus and tram tracks will commence on 8 August 2016 and the streetscape works are expected to be completed on 17 October 2016.

From 1 am on 8 August 2016 Acland Street, between Belford Street and Barkly Street, will be permanently closed to cars.

Early works are underway as outlined in Works Update 3, including additional gas upgrade works, soil testing for track removal and excavation, installation of new power poles and street lights, and overhead power works.

The main works for the construction of the new level access platform and replacement tram tracks will take nine days, and tram services will resume from the new terminus on 17 August 2016.

PTV, the City of Port Phillip and Yarra Trams have worked closely with the appointed contractor to minimise impacts to the community. Noise levels will vary over the course of the works and are summarised overleaf.

Further details regarding streetscape works will be provided in the next Works Update.

Timing of works

Stage	Works Update no.	Start	Scheduled finish*	Approximate timing
Early works	3 Last update	11 July 2016	8 August 2016	Night works
Terminus construction and replacement of tracks	4 This update	8 August 2016	17 August 2016	24 hours
Streetscape works **	5 Next update	18 August 2016	17 October 2016	Mainly day works

* Subject to inclement weather

** To be detailed in future updates

Works information and schedule

Terminus construction and replacement of tracks

Monday 8 August to Tuesday 16 August 2016, mainly 24 hours / day

Acland Street, between Albert Street and Barkly Street

Activity	Approximate timing	Noise level
Site set up and remove existing overhead wiring	8 August (early morning), 2 am - 6 am	Moderate
Demolish existing tracks and pavements	8 - 10 August (day), 6 am - 6 pm	Very High
Excavate existing tracks and pavements, and dispose of waste	8 to 10 August (day / night), 24 hours / day	Moderate - High
Install new track and civil infrastructure	8 - 11 August (day / night), 24 hours / day	Moderate - High
Construct new pavements	11 - 14 August (day / night), 24 hours / day	Moderate
Construct new platforms and overhead works	9 - 16 August (day / night), 24 hours / day	Moderate
Terminus operational	17 August, 5 am (in time for first tram service)	Low

Terminus construction works and track replacement will be completed over a nine day period.

The new level access platform will be located between Belford Street and the entrance to Acland Court Shopping Centre.

Tram tracks will be replaced between the new terminus and Carlisle Street.

The work zone will be bound by a 1.8 m high fence.

A site compound will be located at the Barkly Street

end for staff amenities, materials, plant and equipment storage.

Key information:

- Road closure on Acland Street, between Barkly Street and Carlisle Street. Local access to Belford Street, Irwell Street, Albert Street and Shakespeare Grove will be provided via traffic management staff.
- Wherever possible, pedestrian access to businesses and residences

on Acland Street will be maintained.

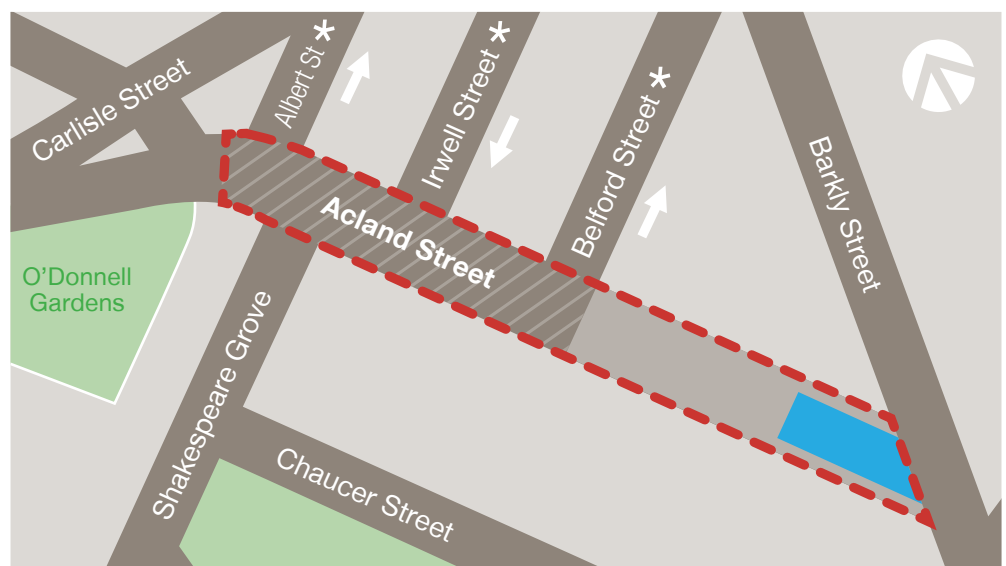

- Additional construction traffic movements will also be experienced on surrounding streets.
- During works, the Route 96 tram will terminate at Luna Park. Access to and from bus stops on Barkly Street will be clearly signed.
- Route 96 services will operate from the new terminus from 5 am on 17 August 2016.

- Associated noise and dust from machinery, vehicles and work crews is unavoidable but we will do all we can to keep this to a minimum.
- The noisiest work will occur between 6 am and 10 pm. However there may be a need to conduct noisy work outside these hours to ensure that the main work activity is completed by the first service on 17 August 2016.

Terminus construction and replacement of tracks

-  Work zone
-  Site compound
-  Temporary road closure
-  Localised traffic disruptions managed by contraflow conditions

Streetscape works

Thursday 18 August to Monday 17 October 2016, day works

Acland Street, between Albert Street and Barkly Street

Footpath areas

Activity	Approximate timing	Noise level
Paving and streetscape works	17 August - 23 September (day), 6 am - 6 pm	Low - Moderate

Plaza areas

Paving and streetscape works	19 September - 17 October (day), 6 am - 6 pm	Low - Moderate
------------------------------	--	----------------

Following the terminus construction, the streetscape works will be completed in three sections; the footpath areas on either side of the street, and the plaza area. The two footpath areas will be completed simultaneously.

Paving will be completed in stages within each zone to minimise impacts to traders. Some night works may also be required to prepare the footpath and plaza area for paving. We will inform you in the next works update if this is required.

The site compound will remain in place at the Barkly Street end of Acland Street during streetscape works. The site compound will be bound by a 1.8 m high fence.

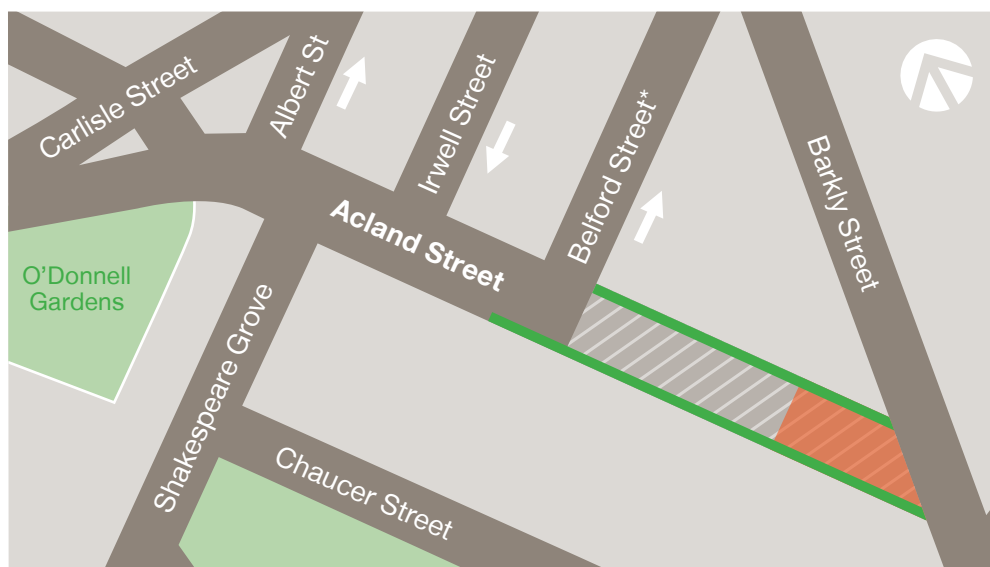

Key information:

- There will be no restrictions to normal vehicle movements other than road closure.
- Pedestrian access will be maintained around work zones.

Streetscape works

	Footpath areas
	Plaza area
	Acland Street permanently closed to traffic between Belford Street and Barkly Street

Road closure

The permanent closure of Acland Street between Barkly Street and Belford Street will be in place from 1 am on Monday 8 August 2016.

In addition, the section of Acland Street between Belford and Carlisle streets will be temporarily closed

during the construction of the new terminus and replacement of tram tracks.

This temporary road closure will be removed after the terminus construction is complete.

Acland Street streetscape

The unique tram shelters and circle paving pattern will ensure the street remains a distinctive place, and reflects what people said was important about St Kilda. The streetscape design provides an urban open space for all to enjoy local art, culture, performances and pop-up events.
