Assessing the success of the trial

A range of qualitative and quantitative information will be collected during the trial of the pop-up park.

Council will weigh up all of the information collected and make a decision on the future of the park that takes into account the needs of the whole community.

Sociability

Identify how the community are using this space and whether it is perceived as inclusive or exclusive.

- User audit—number of users, activities, use, demographics of park users.
- Survey—online at Have Your Say, 700 paper surveys mailed out to local area.
- Demographics—Albert Park, APPS
- Focus group x 2 - residents adjacent to park and APPS

Users & Activities

Find out how people are using the park, what's working, what's not working and ideas for the future.

- User audit—number of users, activities, use, timing, demographics of park users.
- Survey—online at Have Your Say, 700 paper surveys mailed out to local area.
- Demographics—Albert Park, APPS
- Focus group x 2 - residents adjacent to park and APPS

Access & Linkages

- Traffic Audit
- Parking Audit
- Survey—online at Have Your Say, 700 paper surveys mailed out to local area.
- Focus group x2 - residents adjacent to park and APPS

Assess the impact of changed traffic conditions and reduced parking on residents, the school and local businesses.

Comfort & Image

- User audit—number of users, activities, use, timing, demographics
- Survey—online at Have Your Say, 700 paper surveys mailed out to local area.
- Noise audit
- Focus group x 2 - residents adjacent to park and APPS

Find out current perceptions of safety, cleanliness and comfortability of the park for users as well as impact on adjacent residences.
